Speaker #1

---

# City of Olympia Climate Resiliency Plan

---

NATALIE WEISS – CITY OF OLYMPIA

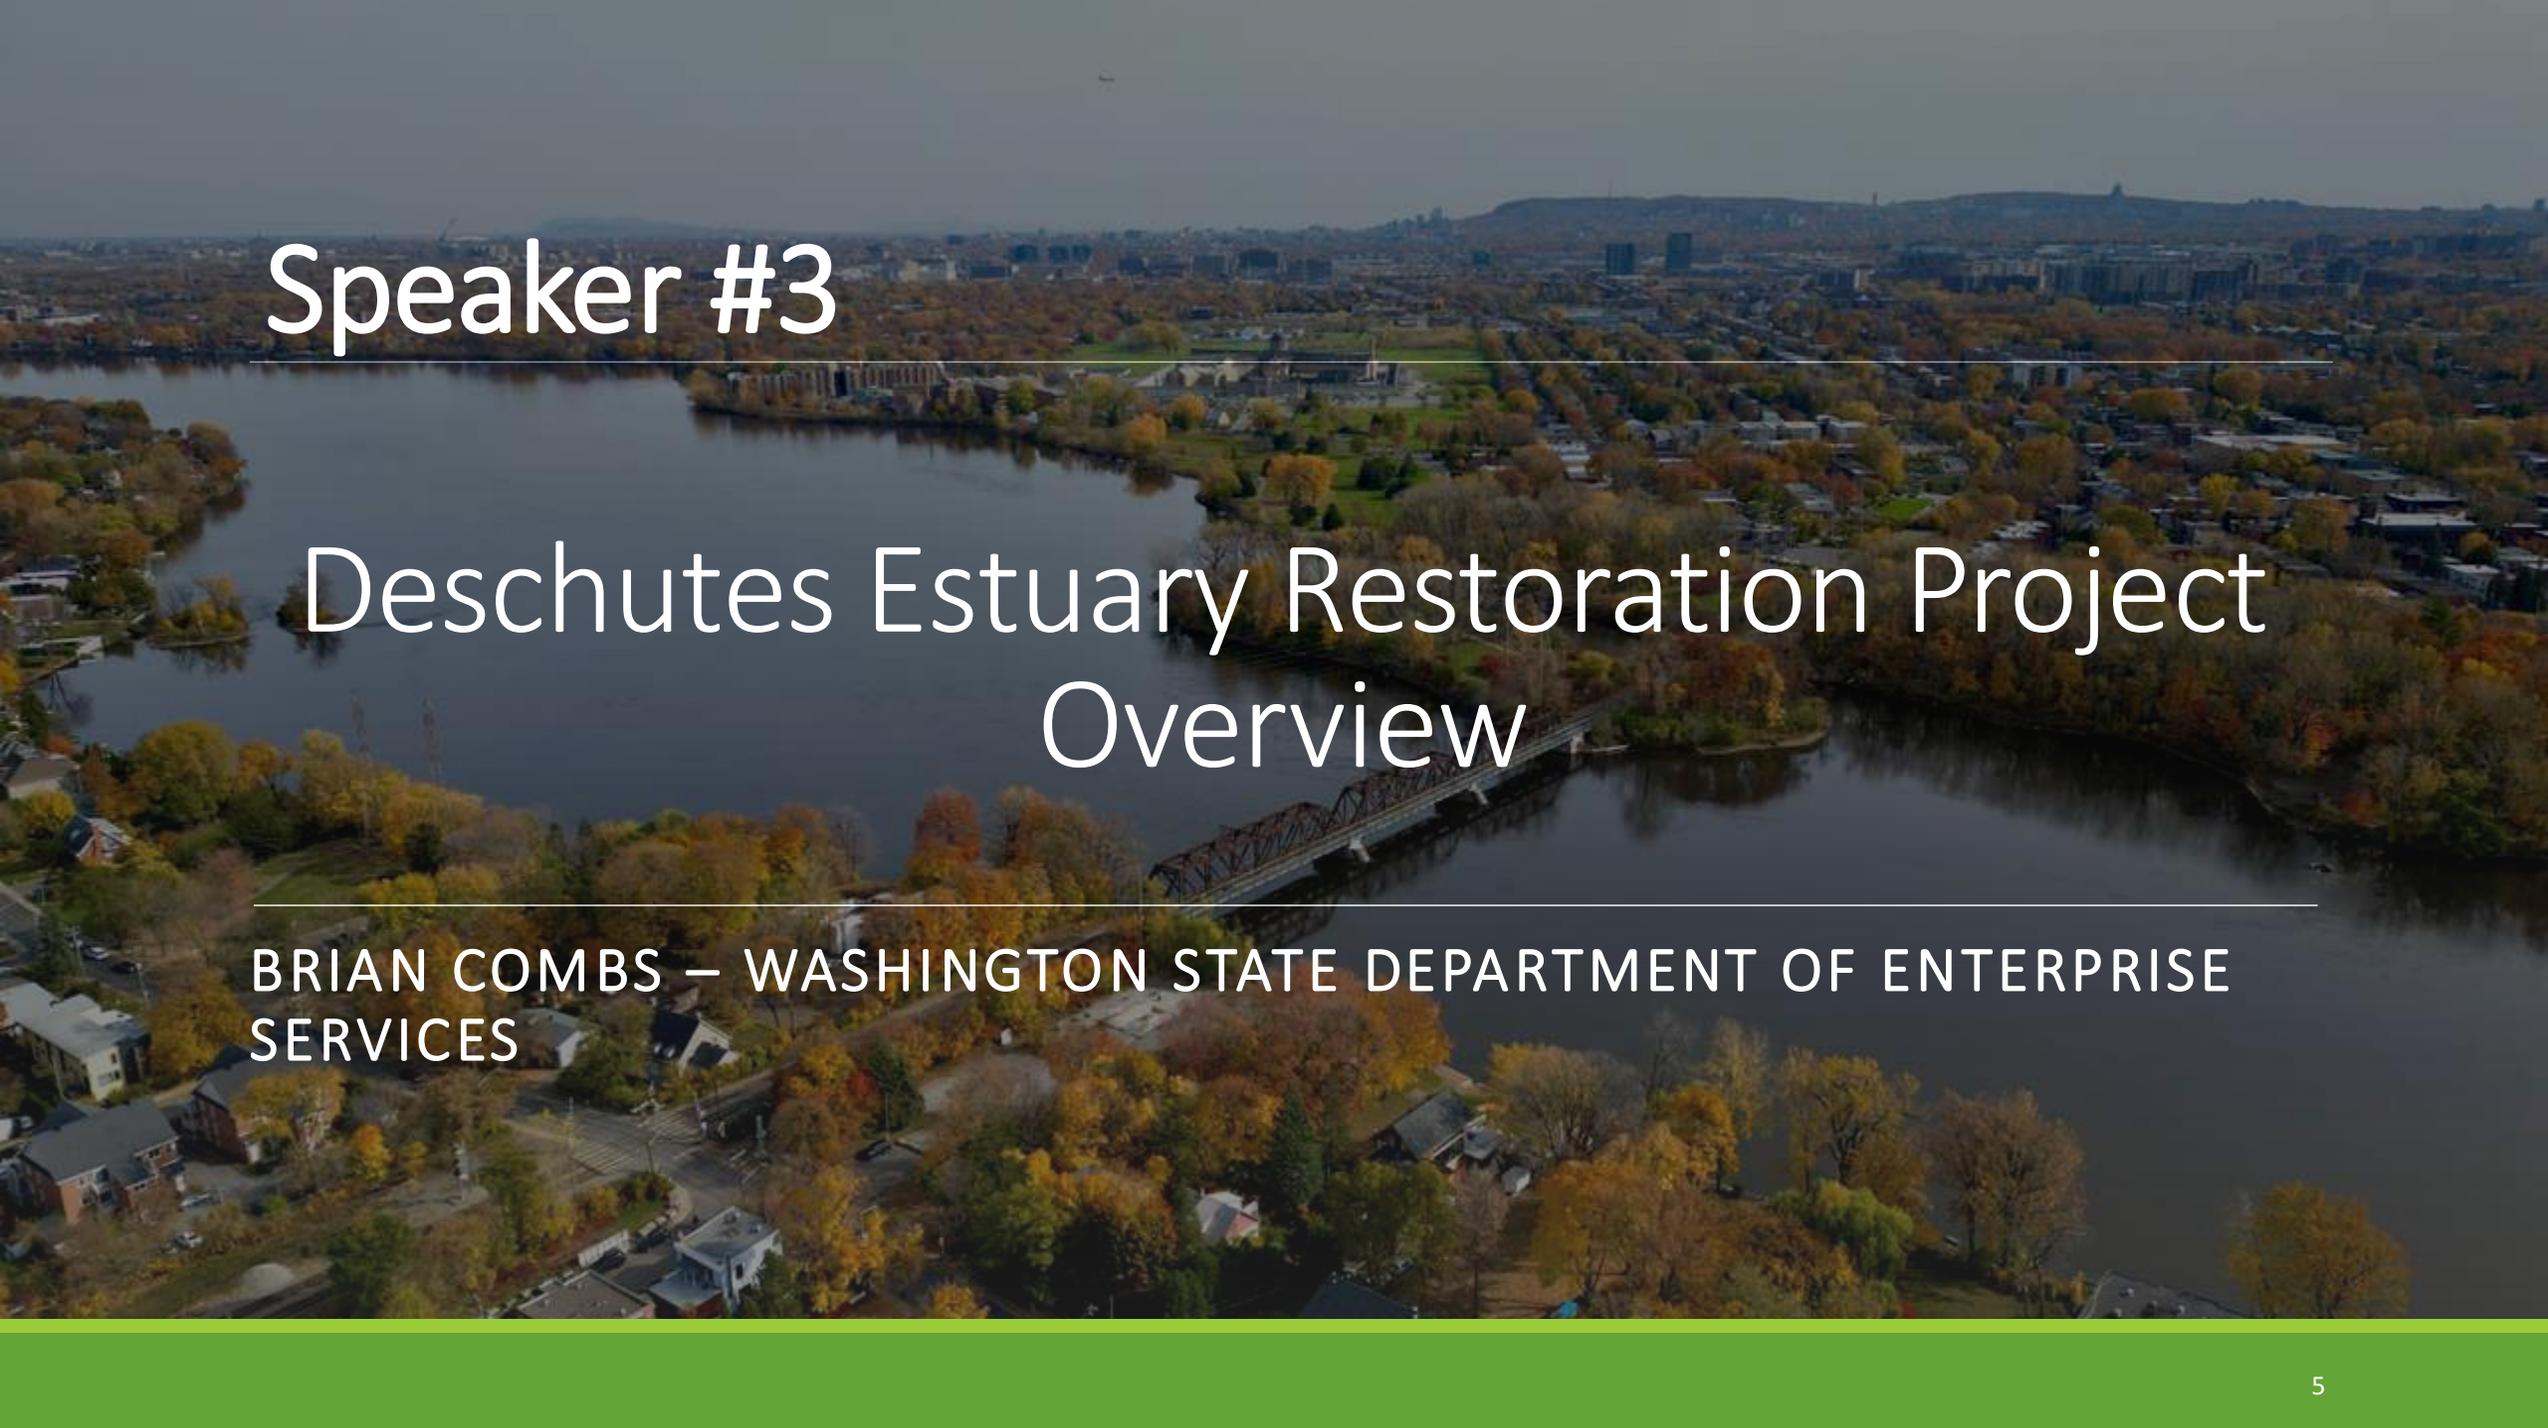

Speaker #2

---

# Riparian Restoration Along the Lower Deschutes River in Tumwater

---

MERIDITH GREER JACOBO - GREER ENVIRONMENTAL CONSULTING

An aerial photograph of a city, likely Seattle, showing a large river (the Duwamish River) winding through the urban landscape. A prominent steel truss bridge crosses the river in the middle ground. The surrounding area is densely packed with buildings and trees, some of which are showing autumn foliage. The sky is overcast and grey.

Speaker #3

---

# Deschutes Estuary Restoration Project Overview

---

BRIAN COMBS – WASHINGTON STATE DEPARTMENT OF ENTERPRISE  
SERVICES

# Group Reflection

---

- What can we learn from the work in the Lower Deschutes that can help us with other work in the South Sound?
- If you could propose any project with no financial limitations pertaining to climate change and community health, what would it be and why?
- Out of all of the presentations today, what presentation or project resonated with you the most and why?

# LIO Updates

---

- OSS supplemental funding and work
- PSP Action Agenda updates
- South Sound Science Center
- Community Forests in South Sound
- LIO planning for Oct 2024 – Sept 2025

# Round Robin Announcements!

---

# Closing – Thank you!
